24x7 Hospitality Technology Secures 100th Customer with Buffalo Wild Wings Franchise Group

POS Systems provide efficient total solution for restaurant management with 24/7 support

St. Charles IL, October 20, 2008 -- The 100th Buffalo Wild Wings Bar and Grill Franchise Group location has chosen **24x7 Hospitality Technology (24x7)** as their POS solution and/or support provider. 24x7, a POS technology solutions and support provider specializing in installation, implementation and personalized support and consulting for the hospitality, hotel/resort and restaurant industries, is the leading provider of the onePOS software solution.

“We install the easiest software to use in the industry. This management system also links the Buffalo Wild Wings stores with their accounting systems, providing a total solution,” said Kyle Hauser, CEO of 24x7. Additionally, “Our unique approach to technical support allows the Buffalo Wild Wings Franchise Group to reach technicians to handle any issue 24 hours a day, 7 days a week and 365 days a year.” Hauser added.

Buffalo Wild Wings Inc.’s same-store sales and profit margins remained positive during the 3rd quarter despite a difficult economy. In their 2nd quarter, which ended June 26, income had soared 46 percent because of increased sales and new restaurant openings. (There shouldn’t be a new line for the next sentence) Same-store sales also rose 8.3 percent at company-owned restaurants and 4.5 percent at franchised restaurants for the period.

A total management system solution for restaurants

The onePOS system has an all-in-one interface and delivers the tools needed for restaurants to communicate with their kitchens, manage cash, and has credit card processing built-in. “We switched to 24x7 Hospitality Technology to obtain better quality of service, and we have not been disappointed,” said Richard Andrews, President/CEO, RAMB Co. LLC, Hudson, Ohio. “I’m currently installing my 8th onePOS location. The equipment and software runs flawlessly, and when we needed assistance, it is provided in an expeditious manner,” Andrews said.

Ms. Hauser admits, “The secret of our success is that we install management systems, not just software.” The management system combines sound business practice and technology in a user friendly approach. The Buffalo Wild Wings Franchisees said that they improved profit levels by controlling daily costs and revenues and eliminating duplication work.

About 24x7 Hospitality Technology

24x7 Hospitality Technology provides restaurateurs with a total technology and support solution. Their onePOS software integrates with Aspect Back-Office software, Bullseye Restaurant Controls, and QSR Kitchen Management. For over 35 years members of the company have supported thousands of systems in the hospitality, hotel/resort and restaurant industries. The company works to provide superior customer satisfaction by providing a total management solution and support 24 hours a day, 7 days a week and 365 days a year.
