### **National POS Provider and Accounting Implementation Service Provider Join Forces to Supply Hospitality Industry with Integrated Solution**

*24-7 Hospitality Technology (24-7 HT) announces partnership with Bullseye Restaurant Controls (BRC) to provide POS systems and managed accounting services and back-office integration together as one product.*

**Geneva, Illinois – March 1, 2010** – 24-7 Hospitality Technology ([www.247ht.com](http://www.247ht.com)), a leading provider of hospitality point of sale products and services for restaurants across the country, released today that they have agreed to a joint venture with Bullseye Restaurant Controls ([www.bullseye-controls.com](http://www.bullseye-controls.com)), a service provider of an integrated back-office solution. The program developed by David Tishkoff, CPA, MBA, provides restaurants with system setup of Aspect Software, implementation, and managed services for restaurants including Buffalo Wild Wings Grill & Bar.

"By combining forces with Bullseye Restaurant Controls, we continue to pursue our commitment to a Total Solution Product for our clients," said President Todd Baker, Jr. He adds, "This joint venture helps to strengthen our brand and differentiates us from other POS suppliers."

CEO, Kyle Hauser is extremely pleased about this announcement. "We have been working with Bullseye for several years now and understand the importance this service provides to the end user. We saw the need to formalize this relationship as a long term venture in order to more effectively market this service."

The new company, a joint venture between 24-7 Hospitality Technology LLC and Bullseye Restaurant Controls, will be known as Bullseye Restaurant Controls, LLC.
