

23600 Rockfield Blvd Lake Forest, CA 92630

I would like to take time to provide a letter of reference for Todd Baker Jr, and onePOS. Todd represented himself professionally and responsibly since the first day I met with him. He has delivered on all his commitments and promises.

I have been involved with restaurants both on the corporate and franchisee side, and I have done hundreds of store openings across the US. In the majority of the openings I have been involved with, the POS systems seem to fail during the first full week of operations. This was not the case with onePOS supported by 24/7 when I opened my 2 Buffalo Wild Wings in California. I have had no major breakdowns or software issues and have been provided top notch service. The user-friendly and intuitive aspects of the onePOS systems make it the POS of choice for me and all my restaurants in the future.

I highly recommend using the onePOS system supported by 24/7 for any restaurant or bar use.

Sincerely,
Randy Yamamoto
